

Common Themes Heard at the Provider Summit

11-2-19

**Not listed in order of priority*

- Increase access and availability by establishing a hotline
- Funding and resources should be equitable and accessible across all geographic areas of the County
- Consultation should be affordable for providers
- Mixed media resources are needed in multiple languages (handouts, visuals, trainings, etc.)
- More support in caring for children (specifically toddlers) with mental health, behavioral health, and socio-emotional health needs
- Increase networking between providers
- Mental health support and other resources for providers
- More support for family home providers
- Ability to provide feedback about consultant
- Cultural and linguistic match with consultant
- Equity and anti-bias training provided to all health consultants
- Increase coordination and collaboration between CCHC, Early Achievers and Licensors
